

APPROVED TRACTION CONTROL

Sand provided by the City (Red bins) this sand is provided as a courtesy but should not be relied on as your only source of traction.

- Parking Lot at corner of Barlow and Mclean (Willis Harper)
- City Parking Lot at corner of Reid and St. Laurent Avenue (Spirit Square),
- City Parking Lot at corner of Kinchant & Barlow (Legion).

Mixture of Sand and Salt (>1%)

- DO NOT use more than 1% salt on the sidewalks. This will cause extreme erosion and damage the sidewalk.

Lava Grip

- Great alternative to sand. This product is not effected by temperature, does not track into businesses and is easy to clear in the spring.
- Available online: www.homehardware.ca/en/45kg-anti-slip-traction-aid/p/5548293

Ice melt products with X22 added

Plastic shovels

- Cause less damage to the sidewalk.
- Metal shovels and scrapers should be used very little as they damage the sidewalk.

Fertilizer

- With straight nitrogen (40-0-0)
