

We have an opportunity to re-purpose our Car wash building into a Popeyes Chicken.

With a new car wash tunnel opening just down the road from our location opening this spring will take more business away for our location, it doesn't make any financial sense for us to keep open. Business has been very tough since the covid pandemic started and has never come back to the volume we had previously.

Plus, my brother Maurice has been looking after the maintenance of our Car washes, is retiring.

We built a small mall in Salmon Arm last year and Popeyes opened in it and they have been very successful and the customers love it.

They are also going to be opening in Prince George and William Lake, but we convinced them that Quesnel should be first.

Popeyes is one of the fastest growing Franchise in Canada.

Thank you,
