To determine an estimate of property taxes take the assessment by BC Assessment / 1000 * the total tax rate at the far right applicable for the class of property.
For example a residential house valued at \$185,116/ 1000 * 11.05693 = \$2,046.81

Please note: depending on the location of any property, frontage and parcel taxes may be applicable for water and sewer in addition to the property taxes above.
